DON'T TANGLE OR CONTAMINATE RECYCLE RIGHT FOR A GREENER STATE

Don't trash recycling — it's expensive! Unwanted materials can ruin a collection of recyclables or shut down the recycling equipment.

CLEAN, DRY AND EMPTY

Put food waste in the compost. Don't recycle items with food/liquid in them.

NO TANGLERS

Cords, hoses and stringy items tangle up the recycling equipment.

NO PLASTIC BAGS

Keep recyclables loose and free! Return clean, dry plastic bags, wraps and packaging to your grocery store.
